INTER ENGINEERING 10

BULGARIA

Inter Engineering 10 LTD was found in 2010 in the Bulgarian town of Razgrad as an engineering link to INOX LTD – a company with over 20 years of experience in producing stainless steel machines and constructions. The company offers a wide range of services in the field of mechanical design, development, manufacturing, construction and installation as well as maintenance and repair of specialized machines and facilities according to the production needs of our clients.

Our main activity is manufacturing of custom-made machines and tanks from stainless, regular and galvanized steel for the needs of the following industries:

1. Pharmaceutical and Cosmetic
2. Food&Drink
3. Chemical
4. Agrarian
5. Heavy industry
